

AAI-1 Homework

Instructions

Please time yourself but don't stop yourself as you write your first essay. If you go over 30 minutes, you should make sure that your response is no more than about 500 words (one page).

Type your response as a Word document and email it to me in .docx format. Let me know how long you worked on it. If possible, duplicate the prompt below at the top of your page. I will be able to provide feedback to the first three students to submit their responses.

“The best way to teach is to praise positive actions and ignore negative ones.”

Write a response in which you discuss the extent to which you agree or disagree with the recommendation and explain your reasoning for the position you take. In developing and supporting your position, describe specific circumstances in which adopting the recommendation would or would not be advantageous and explain how these examples shape your position.
